Any of your favorite tools or supplies.

Bring if you have:

Small metal snips or pruners

Small Japanese saw

Instructor providing: a selection of round reed, small pre-cut plywood bases, miscellaneous wire & twine, small spring clamps.

See next page for more:

TOOLS

Above is the core of my tool kit: (L. to R. from top) my all-around shop gloves – I like garden gloves (I will have a new pair!), pencil, eraser, small Moleskin note/sketchbook, round-nose pliers, electrician's pliers, needlenose pliers, awl, old steel burnisher, matt & exacto knives, garden sips, diagonal snips, dozuki saw. Oh, I forgot my favorite little wood knife. And I'll probably take a bastard file or other combination of rasps or files. Just in case.

above: L – R –needlenose pliers, electrician's pliers, diagonal snips.

round-nose pliers – I'd like to find some large ones.

I love simplicity and the most direct kinds of working processes. And, because of the fleeting nature of our time together, and the fact that many of us will be travelers, I want to make the whole enterprise *fleet* - meaning trim, efficient, un-cumbersome.

Toward that end, you are encouraged to use your own discretion about what you bring in your tool and supply kits. My rather minimal requirements are listed below.

Please include the following in

your workshop kit:

Sketchbook & drawing implement – any size or kind

Towel

Hand lotion

Empty spray bottle

Diagonal scissors, snips or other

Small (& tiny) spring clamps

Pliers – needlenose and/or electrician's pliers

Any of your favorite tools or supplies

Small and tiny spring clamps:
